

Review 08_02

As I have noted before, please test what you are asking me to verify. We end up wasting a lot of time if what you are asking me to verify is either not working or I cannot get to it.

1. Update the job Category from the admin side. ? *[Richard]: Verified - able to add and save Category on Admin side.*
2. Update job type from the admin side. *[Richard]: FAILED: When I clicked "Save" the following page was displayed*

The screenshot shows a PHP error page with the following details:

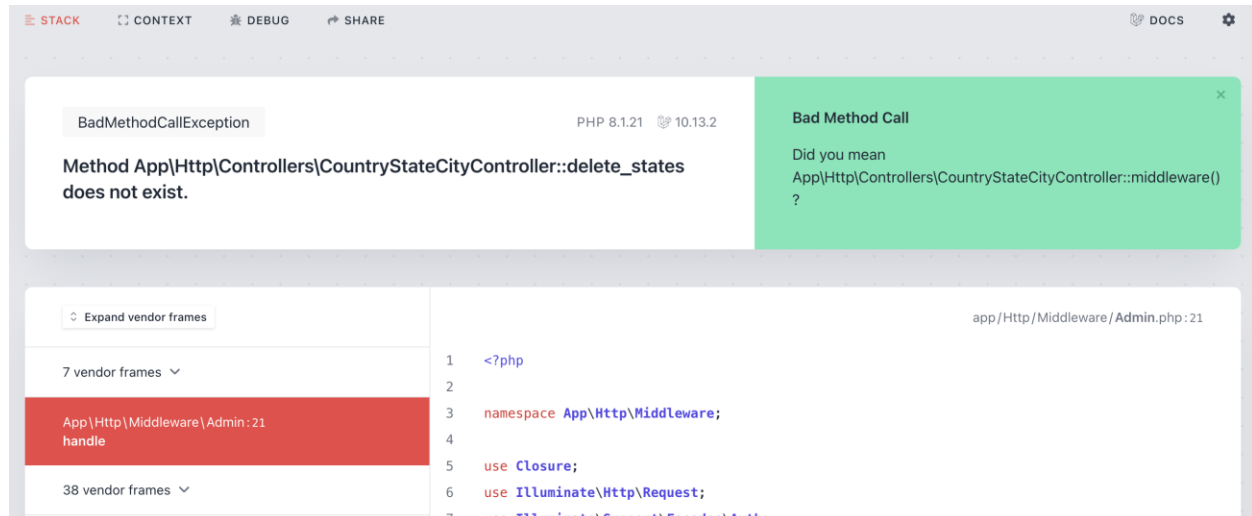

- Exception:** Illuminate\Database\QueryException
- SQLSTATE[23000]: Integrity constraint violation: 1048 Column 'name' cannot be null**
- SQL Query:** `INSERT INTO `job_categories` (`name`, `updated_at`, `created_at`) VALUES (?, 2023-08-02 13:40:15, 2023-08-02 13:40:15)`
- Stack Trace:** The stack trace is partially visible, showing the file `app/Http/Controllers/AdminController.php:33`.

3. Update job Experience from the admin side. *[Richard]: FAILED*

The screenshot shows a PHP error page with the following details:

- Exception:** Illuminate\Database\QueryException
- SQLSTATE[23000]: Integrity constraint violation: 1048 Column 'name' cannot be null**
- SQL Query:** `INSERT INTO `job_categories` (`name`, `updated_at`, `created_at`) VALUES (?, 2023-08-02 13:43:35, 2023-08-02 13:43:35)`
- Stack Trace:** The stack trace is partially visible, showing the file `app/Http/Controllers/AdminController.php:33` and the method `addJobCategory`.

4. Update States from the admin side. *[Richard]: Was able to add state. But when I tried to delete State, I got this page*

5. UI responsive. *[Richard]: Verified for Home Page*
6. Edit and update Applicant Job Multiple statuses with client UI. *[Richard]: Was unable to sign with the employer credentials you had given me before or register as an employer so Failed to test.*
7. Create all Contact screens. *[Richard]: Unable to test this since I could not log in as an employer*
8. Add phone number in add and edit user from an employee. *[Richard]: Unable to test this since I was unable to log in as employer*
9. Created an article from the admin side. *[Richard]: Able to add an Article but MUST ADD WSIWYG editor for formatting the article*
10. save updated status history. *[Richard]:*
11. created a new screen to see specific user status history. *[Richard]:]; Unable to test this since I was unable to log in as employer*
12. created a new screen for searching resumes. . *[Richard]:]; Unable to test this since I was unable to log in as employer*
13. created search filters (2 search filters done 8 remaining). *[Richard]: . [Richard]:]; Unable to test this since I was unable to log in as employer*
